5	Define the software architecture for the project	15/07/2024	All members	100

2. Issues and impacts:

1. **Difficulties in Front-end implementation:** Our team encountered difficulties in implementing the front-end components, despite having a UI prototype to follow. The nature of the Dart programming language and the Flutter framework made certain components more challenging to implement. This led to slower progress and potential delays in our development schedule. To overcome this issue, the front-end team set up regular meetings to discuss the challenging parts. They collaborated to go through relevant documentation, tutorials, and videos related to the problems. By addressing the issues one by one in order of importance, the team was able to systematically resolve the challenges.

3. Next week's goals:

STT	Description	Due Date	Responsibility
1	Front-end implementation (cont'd)	22/07/2024	Huy, Khôi, Thảo
2	Back-end implementation (cont'd)	22/07/2024	Hoàng, Châu
3	Prepare dummy data	22/07/2024	Huy, Khôi, Thảo
